SOME of the smart newspaper editors in this country are abusing Gen. Howard for writing a Sunday-school book while on the plains. If he would put in his time drinking rum, they would think better of him.

THE Athens Post thinks the CHRONICLE must have been misinformed in reference to the rumored recommendations of Gov. Marks, looking to the abolition of the office of Superintendent of Public Instruction and other affairs.

THE Augusta (Ga.) factory has manufactured 7,416,185 yards of goods from the 15th of June to the 14th of December, 1878. To its profit and loss account since June 15, after paying dividends, taxes, repairs, etc., it has added \$5,839.75. A two per cent. quarterly dividend has just been declared.

GEN. GARFIELD will have a great many warm supporters for the gubernatorial nomination in Ohio. He is a statesman of ability and a gentleman of sterling integrity. His nomination by the Ohio Republicans would be equivalent to an election, whether Thurman runs against him or not.

THE New York Evening Post is not favorably impressed with Thurman's letter to the Teller Committee. It says:

"We do not know whether or not Senator Thurman aims to rival Representative S. S. Cox as a humorist. Doubtless he would be glad to make the Blaine investigation ridiculous, and perhaps it is for that reason he has made so ludicrous an answer to the call of the Teller Committee for information concerning violence and intimidation in northern elections. His specifications scarcely will bear scrutiny."

How to reduce the expenses of criminal prosecutions by our State courts is a question that engages the attention of every one who thinks anything of retrenchment in the public expenditures. One of our judicial officers, speaking of this matter a few days since, remarked that a very large proportion of the expenses would be cut off by either repealing the law making it a misdemeanor to carry concealed weapons, or increase the punishment to imprisonment in the penitentiary. He says a large proportion of these cases on the criminal docket in some of the counties grow out of carrying concealed weapons in violation of law. Wouldn't it be well to increase the penalty.

Pleasant Occasion.

The employees of W. W. Woodruff & Co. enjoyed their annual treat in the shape of an excellent oyster supper, at the residence of Mr. W. G. Gibbins, the junior member of the firm, on the evening of the 1st inst. It has been the custom of the firm to give their employees an annual supper, and last year the occasion took place at Mr. Woodruff's residence, and this year at Mr. Gibbins'. It was an excellent spread, and the employees thoroughly appreciated, not alone the supper, but also the spirit prompting it.

Revenue Raiders on the Tennessee and Kentucky Border Again.

Delayed Mails East Caused by the Cold Weather.

OHIO.

CINCINNATI, Jan. 4.—A squad of fifty revenue men under Capt. Burnside have returned from a raid upon the moonshiners in the border counties of Kentucky and Tennessee. They report the destruction of over fifty distilleries and the capture of a large number of distillers. It is thought the business is pretty well broken up in that region.

NEW YORK.

NEW YORK, Jan. 4.—The North River is full of ice this morning, but all the ferry boats are running through trips, though the trips were irregular and delays frequent. The Eastern mails are in on time, and the Southern mails due here at 6 and 7.30 reached here at 9.15, the Southwest mail due at 8, at 10.

The sub-Treasury paid out to-day only \$17,000 for legal tenders and took in \$1,355,000 in exchange for notes.

GREAT BRITAIN.

LONDON, Jan. 4.—There are indications of an intention on the part of employers in the West of Scotland to enforce a return to the aggregate of fifty-four hours as the weekly quota of labor. One or two large establishments have already posted notices to that effect. The men have as yet taken no action on the subject, but will hold a meeting for that purpose next week.

A correspondent telegraphs from Frisco Cornwall as follows: "Great consternation is manifested here this morning in consequence of a notice posted on the door of the Cornish Bank announcing that it was closed."

VARIETIES.

The idea of disposing of the dead by cremation is gaining ground rapidly in Germany, Italy and other countries.

During the year 1878 there were 917 failures reported in New York city, with liabilities amounting to \$63,958,403 and assets valued at \$18,695,631.

Anna Dickinson, having lost her fortune through an unfortunate investment in Western lands, will return to the lecture platform to earn a living.

They say now that Gen. Grant's trip to Ireland is to catch the Irish vote. And when he goes to China it is for the purpose of catching the Chinese vote, we presume.

Ex-Gov. Hendricks denies that he has any intention of spending the winter in Washington. He will remain only about a week, to look after cases in which he is engaged in the Supreme Court.

The "True Blue" is the title of a new weekly Greenback newspaper printed at Rochester, which adopts the motto, "We want no bonds, no national banks, no redemption, but paper absolute money."

The unhappy financial condition of Louisiana is ascribed by Representative Randall Gibson of that state to Governor Nichols, who, Mr. Gibson says, is "stupidly indifferent" to the claims of Louisiana's creditors.

The Washington correspondent of the New Orleans Times, (Ind. Dem.) professes to have found out that the Texas Pacific Railroad bill will have a majority of votes in the House of Representatives, and of six votes in the Senate, and that the President will sign it.

General Sherman expects to call the next reunion of the Army of the Tennessee to meet in Chicago in November, 1879, and one of the features of the reunion is expected to be the reception of General Grant, whom General Sherman has asked to be on hand at that time.

Ex-President Woolsey of Yale College read a paper at a gathering of clergymen in New Haven, Conn., last Monday on the Greek words *aión* and *aiónios*, on the interpretation of which depends the doctrine of the duration of future punishment and reward, the point in question being whether the words mean "epoch" or "eternity." He held that the words refer to an unending future life of happiness or misery.

A Bell for the City Schools.  
The City Council performed a commendable act Friday night in making an appropriation to assist in the purchase of a bell for the City Public Schools, and one which will be heartily sanctioned by all good citizens. The \$200 thus appropriated, taken in connection with the very creditable sum realized by the recent concert, will purchase a number one bell, which, when placed in the cupola of the Hampden Sidney building can be easily heard at the most remote suburban residence. A bell of this kind, every one must admit, is highly essential, and, in fact, almost indispensable to the successful management of our excellent schools as now operated, and whatever tends to impair the efficiency of our schools is a fatal strike at the fundamental principles of a good Government. To carry on the schools successfully, punctuality in attendance by the students is essential. But with the unavoidable variation in time pieces, and the many patrons of the schools who have no time piece it is utterly impossible for the children to be punctual. The new bell, of the right sort, however, will avert all this difficulty, and will commence to ring in time for every school child in the city to start to school. The purchase will be made and the bell put up as soon as possible.
